## Notes

Unless otherwise noted, all data are for 2014-15 and include all grades offered by the district.
In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit EdSight (EdSight.ct.gov).
State totals are not displayed as they are not comparable to district totals.
Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to ensure student confidentiality.
N/A is displayed when a category is not applicable for a district or school.

## Performance and Accountability

## District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments.
The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

| MATH | Grade 4 | Grade 8 | Grade 12 |
| Connecticut | $41 \%$ | $36 \%$ | $32 \%$ |
| National Public | $39 \%$ | $32 \%$ | $25 \%$ |

${ }^{1}$ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ${ }^{2}$ The Connecticut Physical Fitness Assessment (CPFA) is administered to all students in Grades 4, 6, 8 and 10. The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.
${ }^{3}$ Only students assessed in all four areas are included in this calculation.

${ }^{1}$ The four-year cohort graduation rate represents the percentage of first-time 9th graders who earn a standard high school diploma within four years. Statewide, district and school results for cohorts of 2010 through 2013 are available online ${ }^{2}$ Cohort count includes all students in the cohort as of the end of the 2013-14 school year.
${ }^{3}$ Targets are calculated when there are at least 20 students in a cohort in the base year (i.e., 2010-11).
${ }^{4}$ Targets are not displayed at the state level.

| District | 74.0 | 322 | 12.6 |
| State | 67.2 |  | 37.3 |

${ }^{5}$ College readiness exams and benchmark scores are as follows:

- SAT ${ }^{\circledR}$ - composite score of 1550 or higher
- $\mathrm{ACT}^{\circledR}$ - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- $\mathrm{AP}^{\circledR}-3$ or higher on any one $A \mathrm{P}^{\circledR}$ exam
- $\mathrm{IB}^{\circledR}-4$ or higher on any one $\mathrm{IB}^{\circledR}$ exam
- Smarter Balanced - Level 3 or higher on both ELA and math
${ }^{6}$ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percent. Sources:

## Next Generation Accountability Results

These statistics are the first results from Connecticut's Next Generation Accountability System for districts and schools. This system is a broad set of 12 indicators that help tell the story of how well a school is preparing its students for success in college, careers and life. It moves beyond test scores and graduation rates and instead provides a more holistic, multifactor perspective of district and school performance and incorporates student growth over time.

SPECIAL NEEDS: Hartford Public Schools is committed to providing quality services for students identified with special needs. This commitment is a continuous process that provides for reflection, development and implementation of improved practices. Focuses for the 2014-15 school year include:

- A continued focus on compliance with the state and federal guidelines.
- Review goals and objectives to ensure measurability and alignment to CT Common Core Standards
- Continue to increase the continuum of services provided by developing new programs within district
- Provide professional development specific to the needs of the department
- Build capacity within to decrease the need for outside consultants
- Continue to build collaborative partnerships with various stakeholders

ABSENTEEISM: Hartford Public Schools has engaged in work to address truancy and chronic absenteeism over the last year but ramping up efforts with school-based attendance teams. Hartford Public Schools has created the District Attendance Remediation Team to serve as a data, policy, and procedural team that focuses on increasing attendance and addressing the Strategic Operating Plan's indicator of good attendance habits. The team consists of several district-based personnel, two of which are the District Attendance Case Managers who provide on-going support and technical assistance to the school based attendance teams. The Attendance Policy and Procedures Manual has been updated and a practice that has been established is the requirement of attendance teams to meet at least monthly with the recommendation of schools with a chronic absenteeism rate greater than the district average to meet once a week. The attendance teams are to identify a point person that will be the liaison between the district and their respective team and school to turnkey important training, policy and procedural updates as well as facilitate team meetings. In addition, Hartford Public Schools has collaborated with Hartford Juvenile Probation to update the existing Family With Service Needs Referral procedure to provide for greater accountability and insight including increased focus on data and communication between the school, the district, and the courts.

FAMILY ENGAGEMENT: The district engaged in an extensive strategic planning process during the 2014-2015 year. During that process, the district's 2013 Family and Community Engagement plan was updated to reflect new thinking and practices including a commitment to the Dual Capacity-Building Framework for Family-School Partnerships, a focus on alignment to student outcomes, and a collaborative approach to family and community engagement. The planning process engaged SGC and parent organization leaders, students, teachers, principals, Board of Education members, and others. The result: an updated Family and Community Engagement Action Plan for 2015-2020.

During the year, several priorities were advanced:

- Monthly workshops held where district staff and educators work with parent to share information about major topics linked to student learning and success.
- Coaching and support to SGC parent chairs, principals and SGC members to build the capacity of parent and community leaders, along with school staff.
- Hosting of a Partnerships for Excellence Workshop series for community-based organizations and support staff.

## Efforts to Reduce Racial, Ethnic and Economic Isolation

The Hartford Public Schools (HPS) Portfolio Model provides the greatest range of educational opportunities to both Hartford resident and suburban families. In 1996, the Connecticut Supreme Court ruled in Sheff v O'Neill that racial isolation in the state's schools denied students an "equal educational opportunity" and ordered the legislature to devise a solution (Milo Sheff, et al. v William A. O'Neill, et al., 238 Conn. 1, 678A.2nd 1267 (Connecticut Superior Court 1996).
Hartford families can select from over 28 non-magnet public school districts outside of Hartford through Open Choice and more than 50 magnet school options in the Greater Hartford Region operated by partners including: Hartford Public Schools, Capitol Region Education Council (CREC), Goodwin College, East Hartford Public Schools, and Bloomfield Public Schools. Families can select schools

Over the past three years, through the Sheff v. O'Neill stipulated agreement HPS has increased the number of district operated Magnet Schools from 13 to 20. The Sheff remedies have played an important role in creating quality, integrated educational opportunities that align with the overall district reform efforts to increase options and enable families to select quality schools where they live. Currently, Naylor Elementary School is the only non-magnet desegregated HPS district school. Other efforts to reduce racial isolation have introduced new models, such as Light House Schools that focus on integrating neighborhoods through community development strategies and offering options for suburban families to attend HPS district schools.

Annually, a parent information and recruitment campaign is launched to inform families in the Greater Hartford Region of the 20 HPS Magnet Schools focusing on themes such as Journalism \& Media, STEM, Montessori, Performing Arts and Environmental Sciences. Steady progress has been made in ensuring that Hartford resident students have access to a quality, integrated educational environment. According data released by the State Department of Education, 11,670 black and Hispanic children who live in Hartford are currently attending segregated schools, thus only $47 \%$ of Hartford's minority students are reported to be in integrated schools. (CT Mirror-New Data 1/16/2016).

## Equitable Allocation of Resources among District Schools

Hartford Public Schools allocates funding through a student-centered budget methodology known as Weighted Student Funding (WSF). Under the WSF formula, HPS allocates funding to each school based on student enrollment and weighted student characteristic. The WSF formula ensures each school receives a base amount for every student that enrolls in their school along with extra per-student funding for students in need of services such as special education, English language learners, or academic intervention. HPS achieves equity in funding by ensuring;

- All students with similar characteristics and needs are funded in the same way regardless as to which school they attend;
- All students with unique needs are funded at higher rates to allow for additional programs and services in relation to their needs.

The district provides a significant amount of supplemental financial supports to low performing schools to meet their improvement goals. Within some of the district's larger supplemental grants, almost 60 percent is allocated directly to the schools with the most need in order to support the implementation of their school improvement efforts.
