Notes

Unless otherwise noted, all data are for 2024-25 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://public-edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., English Language Arts(ELA), Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Performance on NAEP by student group is available at <https://tinyurl.com/CTNAEP2024>

The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

Note: Only students assessed in all four areas are included in the All Tests calculation

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Milford School District

Narratives

School District Improvement Plans and Parental Outreach Activities

In Milford Public Schools, we utilize a core set of four anchoring frameworks to guide, support, and sustain progress and growth across the district. The MPS model for High Quality Instruction (HQI), Vision of the Learner (VoL), Developmental Relationships Framework (DRF), and MPS Equity Framework work in support of the Board of Education's Goals and Commitments. A continued focus on ensuring a safe and supportive climate that promotes high-quality instructional experiences and opportunities for each student is central to our core beliefs. Our district professional learning opportunities are intentionally aligned to the singular district improvement strategy of implementing high-quality instruction in every classroom for every student through embedded professional learning experiences for staff and leaders.

The district has continued to evolve its systems of support for learners. Our Multi-Tiered Systems of Support (MTSS) plan provides opportunities for instructional coaches to push in to support small group instruction during an Academic Support and Acceleration block across all eight elementary schools. Building-based attendance and truancy teams work closely with families to support improvement in student attendance. Our strong transition program provides students ages 18-22 job-embedded work and life skill development experiences. The Parsons Perks coffee stand is one example of the excellence of this program. Our district-wide Social Emotional Learning Guiding Coalition focused on themes of belonging, building community in the classroom, and building community with families.

We continue to explore opportunities to strengthen school, family and community partnership across all levels, elementary, middle school and high school. Our district hosts transition events for students advancing from elementary to middle school and middle to high school. The Pupil Personnel Department (PPS) continues to offer virtual and in-person IEP/504 meetings to review student progress towards meeting academic and social-emotional goals and objectives. Schools offered a variety of workshops to families across the district to support access to the arts and music, college financial planning, and post high school planning. Weekly school-based newsletters continue to provide families with pertinent resources and information. In collaboration with the Milford Prevention Council, our high schools offered an opportunity for families to learn from experts on the influences teens face daily through our Freshmen Forum. Each of our fourteen campuses offers opportunities for families to become involved through PTA, PTO, Booster Clubs, or other parent groups. Families in our Ready to Learn (RTL) programs were introduced to the Sparkler application. This free program offered by the Connecticut State Office of Early Childhood Education supports families with engaging learning activities in the home environment. The district administers an annual survey to all families regarding school climate and garners feedback on communication and programming. We continue to explore how to best leverage technology and social media platforms to share information with our MPS families and wider city community.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Milford Public Schools continues to explore opportunities to reduce inequity and isolation across our district and in partnership with local organizations. Our Board of Education affirmed its commitment to advocating for equity and inclusivity through its support of the launch of our Equity Framework. This framework provides key direction in six key areas ranging from building authentic student relationships to developing staff capacity, and centering family engagement and voice.

Leading with the research that demonstrates the impact of student achievement that can result from a diverse educator workforce, the district established a working group to develop a plan to increase educator diversity. This work began with our commitment to "being an inclusive, nurturing, equitable and anti-racist learning environment, where every student, teacher, support professional, parent and school community member is treated with dignity and respect." The district continues to support the Teacher in Residency program to recruit and retain educators from a variety of backgrounds.

Our schools remain committed to a variety of programs, learning experiences, and opportunities for belonging and inclusivity. This included the Black Student Union, Asian Pacific Islander Club, Unified Sports, Buddy Bench Program, and Gay-Straight Alliance. Student equity coalitions reinforce students as co-creators in building inclusive school communities. Our schools continue to support students with personalized FAFSA assistance and fee waivers for SAT and AP testing. At the middle school level, world language programming continues to be expanded. The district continues to host students through the Open Choice program. Partnerships with local community organizations continue to reduce economic hardships for families. The YMCA and Boys and Girls Club ensured affordable before and after school childcare for families. The Salvation Army's Backpack Program continues to provide "new backpacks full of school supplies" for students in need. Partnership with Milford's Food to Kids provided nutritional resources to families. Mittens for Kids, clothing pantries, and food closets help to support families with valuable resources throughout the school year.

Equitable Allocation of Resources among District Schools

We continue to prioritize equitable distribution of resources across our fourteen campuses. Using a zero-based budgeting approach, our district budget represents the true need of every classroom, school, and district program. Budgets are developed utilizing the four district pillars as a foundation: Vision of the Learner, model for HQT, Developmental Relationships Framework, and MPS Equity Framework. Our school district supports access to technology for all learners through its 1:1 program. Our Information Systems Department continues to collaborate with the Teaching and Learning Department to ensure that families have resources and support to promote continued learning at home through the use of technology. Our staffing model includes a school counselor at each of our elementary schools to offer comprehensive school counseling and related support services for students and families. We are proud to support world language instruction beginning at the elementary level across all eight elementary schools. Our PK-8 instructional coaching model continues to support student and staff learning and our elementary STEM labs support science education at all eight elementary schools.
