### Performance and Accountability

#### District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., English Language Arts(ELA), Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

#### National Assessment of Educational Progress (NAEP): Percent At or Above Proficient

| Year | Subject | Grade | CT  | National Public |
|------|---------|-------|-----|-----------------|
| 2024 | Reading | 4     | 36% | 30%             |
| 2024 | Reading | 8     | 35% | 29%             |
| 2024 | Math    | 4     | 42% | 39%             |
| 2024 | Math    | 8     | 32% | 27%             |

NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Performance on NAEP by student group is available at <https://tinyurl.com/CTNAEP2024>

The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

**Note: Only students assessed in all four areas are included in the All Tests calculation**

| All Students - State                     |       | 47.2     |

Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

### Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

| Indicator                                  | Student Group       | Index/Rate | Target | Points Earned | Max Points  | % Points Earned | State Average Index/Rate |

If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served. Gap calculations are based on unrounded rates.

| Subject | Student Group       | Participation Rate (%) |
|---------|---------------------|------------------------|
| ELA     | All Students        | 98.8                   |

## Regional School District 20

### Narratives

#### School District Improvement Plans and Parental Outreach Activities

As Region 20 concludes its inaugural year, performance on benchmark assessments and state testing remains solid. By utilizing a district-wide approach to data-driven instruction, all students, regardless of performance level, are provided with differentiated instruction intended to yield the highest levels of academic growth. At the high school level, the SAT and AP scores and data for both 2-year and 4-year college attendees speak to excellence in programming. The Board of Education will use this data when drafting its goals for its strategic plan.

As we engage in what we hope to be the final stages of the disruption to education caused by the COVID-19 pandemic, Region 20 School District uses a variety of strategies to support students' academic and social-emotional needs. These include increasing access to mental health services for students and staff through a community partnership with a local counseling and mental health referral service and incorporating scheduled time during the school day for students to engage in targeted academic interventions.

In the area of special education, Region 20 School District commits to educating all students in the least restrictive environment. Students with disabilities are supported so they can successfully participate in regular classes, as well as appropriate school-sponsored extracurricular activities. The development of a post-secondary transition program allows Region 20 families and adult students to partner with the school community to develop meaningful IEP objectives and transition activities. Emphasis is placed on the formulation of program modifications, adaptations, and instructional strategies so that the completed IEPs are meaningful to the parents and regular education.

Region 20 School District provides a preschool program for identified 3- and 4-year-old students and extends that offer to 3- and 4-year-old community peers. The program has proven to strengthen the overall transition to kindergarten.

Engaging families in student learning is of high importance throughout the school district. School administrators regularly offer parent advisory meetings and create multiple opportunities for parents to volunteer in the buildings and in classrooms. Additionally, parents and staff are encouraged to serve on various committees (such as safety, climate, and school improvement).

To build staff capacity to partner effectively with families, the district upgraded the district website and electronic communication tools and launched a digital app available for download on Apple and Android devices. These upgrades provide families with timely information.

#### Efforts to Reduce Racial, Ethnic and Economic Isolation

Region 20 Schools expands learning opportunities that reduce racial, ethnic, and economic isolation and design programming to meet the needs of all learners. The district employs policies that encourage intra-district transfers, allowing students to attend any school within the district. The district's Non-resident policy also encourages families from other towns to enroll in any school in our district.

Our newly adopted K-5 English Language Arts program uses content that focuses on building students' knowledge of the world through rich texts that emphasize diversity. The program also offers extensive support for multilingual learners and provides opportunities for these students to link their unique lived experiences to the standards-aligned themes and content. Also, our K-8 school counseling curriculum has several units that specifically address skills that support tolerance and respect for others from backgrounds different from their own.

The district offers many opportunities to extend learning beyond the classroom and has financial support systems in place to remove any economic barrier a family may face. These all-inclusive experiences include but are not limited to various trips abroad to areas such as Ireland, Italy, France, and Quebec. Also, our 1:1 Apple Device program ensures that all students receive an iPad to assist with their access to any and all Region 20 learning programs.

## Regional School District 20

### **Equitable Allocation of Resources among District Schools**

Region 20 School District equitably allocates resources among all the schools in the system. Programs, supplies, and services are provided to students in each school in a fair and uniform manner appropriate to the learning and developmental needs of students at the elementary, intermediate, middle, and high school levels. The district-level budget is built directly from building-level requests and needs that are driven exclusively by programming.

The Region 20 School District maintains a focus on maintenance and custodial services to ensure that all students in the district are educated in school facilities that are appropriate to the educational programs offered and that are safe, healthy, and pleasant.

The superintendent and Board of Education review specific characteristics of our student census across various grade levels and secondary course enrollments to ensure all students have equitable resources to meet the goals of our district programming. The Board of Education frequently refers to and adheres to their class size policy, particularly in grades K-5, to guide their decision-making.
