## Notes

Unless otherwise noted, all data are for 2018-19 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit edsight.ct.gov.

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

## Performance and Accountability

## District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75 .

${ }^{1}$ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ${ }^{2}$ The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.
${ }^{3}$ Only students assessed in all four areas are included in this calculation.

## Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

## Narratives

## School District Improvement Plans and Parental Outreach Activities

Sprague maintains its focus on continuous improvement. Grade level teachers meet at least weekly to discuss classroom instruction and student achievement data. Administrators and teachers meet monthly by grade level to discuss student achievement and behavioral data. There are also monthly faculty meetings held to disseminate and discuss important data points in addition to other school events and activities that focus on continuous improvement. Data is analyzed at the district, school, grade and individual level. Teachers collaboratively use target strategies, including Restorative Practices, to increase positive behavior and student achievement. The strategies include support for managing student behavior which minimizes disruptions to classroom instruction and assists children with challenging behaviors. SRBI meetings are held throughout the course of the year with classroom teachers, support staff, and interventionists to monitor student achievement in math and language arts. Students are supported through tiered interventions that target areas of need. Sayles School has an attendance team that meets weekly to look at attendance records and to identify students at risk for truancy. SAT meetings are held with families to discuss attendance concerns and to proactively put plans in place to increase attendance. Letters are also mailed home to families to keep them apprised of attendance and tardy concerns. SAT meetings are also held to review academic and behavior concerns. School staff and family members meet to discuss student progress and make appropriate recommendations for the continued success of our students. A Sayles School Mentoring program was implemented this year with a focus on developing strong relationships between mentees in the school and mentors from the community. After school tutoring programs and summer school sessions for students with disabilities, continual assessment of progress coupled with data analysis and allocating staff to meet the needs of the district, allows the district to be flexible and to quickly adapt to student needs. .The Sprague Board of Education has goals to encourage greater parental family involvement and communication. Activities conducted to meet these goals include: an annual Back to School Bash, an opportunity to visit classrooms the day before school, a Meet-the-Teacher Open House Night, an annual high school fair, fall and spring parent teacher conferences, The Mustang Memo weekly school newsletter written by the principal, a Sayles School website and individual teacher websites, a school-wide digital backpack, three concerts and plays open to the parents and the public, a 5 K Color Run, newsletters published in the community newspaper, Our Town, email between teachers and parents, individual student assistance team meetings with parents, administrators, teachers and other staff as appropriate, PPT and 504 meetings, preschool and kindergarten parent programs and visits, an active PTO which assists teachers with various tasks and supports student programs, use of a mass notification system, bi-monthly school-wide Good News Assemblies with families and the communities, annual Veterans' Day Programs with the community, and regular family events, for example, early childhood education committee meetings, school-wide community Outreach, Kindergarten orientation, \& Polar Express.

## Efforts to Reduce Racial, Ethnic and Economic Isolation

Sprague Public Schools continues to maintain an ongoing effort to reduce racial, ethnic and economic isolation. Students attending Sayles School have the following schools to select from when deciding on their high school education: Norwich Free Academy, Norwich Technical High School, Windham Technical High School, The ACT Arts Magnet High School, New London Science and Technology Magnet School, Lyman High School and VoAg Program in Lebanon, and Griswold High School. Additionally, students from Sprague have the option of attending the following schools: Bennie Dover Middle Magnet School, Nathan Hale Arts Magnet School, STEM Magnet Middle School, Charles Barrows STEM Academy, Regional Multicultural Magnet School, Winthrop Elementary Magnet School, and the Integrated Day Charter School. Eighth grade students travel to Boston annually to experience an urban environment. Sayles preschool program is accredited through National Association for the Education of Young Children (NAEYC) and is accessible to students of all economic, racial and ethnic backgrounds, including children with disabilities, and which includes free transportation.

## Equitable Allocation of Resources among District Schools

Sayles School and the Board of Education work tirelessly to provide a comprehensive and rich educational opportunity to its students in grades PK - 8 . Resources are requested where needed and appropriated as approved by the Town. Students are provided numerous choices for their 9-12 education including Norwich Free Academy, New London Science and Technology Magnet School, Norwich Technical High School, Windham Technical High School, ACT Arts Magnet High School, Lebanon Regional Agricultural Science and Technology Center, Lyman Memorial High School, and Griswold High School. Sprague also partners with students attending the two parochial schools in town (St. Joseph School in Baltic and Academy of the Holy Family in Baltic) for students requiring additional services in order to ensure all students who qualify for individual family service plans receive the services they are entitled to.
