## Performance and Accountability

## School Performance Index (SPI)

A School Performance Index (SPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments.The SPI ranges from 0-100. An SPI is reported for all students tested in a school and for students in each individual student group. Connecticut's ultimate target for an SPI is 75. The USDOE approved Connecticut's waiver request related to statewide student assessment in science. As a result, in spring 2018, the Connecticut State Department of Education administered a NGSS Assessment Field Test for both science standard and alternate assessments. Therefore, no science data appear in the table below.

|  | English Language Arts(ELA) |  | Math |  |

## National Assessment of Educational Progress (NAEP): Percent At or Above Proficient ${ }^{1}$

|  | NAEP 2017 |  | NAEP 2013 |
| :--- | :---: | :---: | :---: |
| READING | Grade 4 | Grade 8 | Grade 12 |
| Connecticut | $43 \%$ | $44 \%$ | $50 \%$ |
| National Public | $35 \%$ | $35 \%$ | $36 \%$ |
| MATH | Grade 4 | Grade 8 | Grade 12 |
| Connecticut | $40 \%$ | $36 \%$ | $32 \%$ |
| National Public | $40 \%$ | $33 \%$ | $25 \%$ |

${ }^{1}$ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Physical Fitness Tests: Students Reaching Health Standard ${ }^{2}$

${ }^{2}$ The Connecticut Physical Fitness Assessment (CPFA) is administered to all students in Grades 4, 6, 8 and 10. The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.
${ }^{3}$ Only students assessed in all four areas are included in this calculation.

## Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.
The USDOE approved Connecticut's waiver request related to statewide student assessment in science. As a result, in spring 2018, the Connecticut State Department of Education administered a NGSS Assessment Field Test for both science standard and alternate assessments. Therefore, no science data appear in the table below.
