

Public School Enrollment Report Notes

Tables and charts in these reports use the Public School Information System (PSIS) October Collections and PSIS Registration as their source. In the PSIS October Collection, public school districts report students enrolled as of October 1.

School-level data include only those students attending the school, while district- and state-level data include students outplaced to non-publics and out-of-state facilities.

If a student is placed by one district into another district, the student is counted in the school where the student is being educated i.e., where the student sits.

Terms:

Term	Source
Grade	PSIS October Collection
Special Education Status	PSIS October Collection
Race	PSIS Registration
Free/Reduced Lunch Eligibility Status	PSIS October Collection
